PRELIMINARY AMENDMENT

I. Introductory Remarks

This paper is filed contemporaneously with a divisional application of U.S. patent Application Serial No. 09/978,939. In the '939 Application, Applicant received a restriction requirement in an Office Action mailed August 19, 2002, and in response elected to pursue prosecution of claims 1-7. Originally submitted claims 8-15 were cancelled, and additional claims were added.

The present divisional application is filed to pursue prosecution of claims 8-15 and additional claims reading on the species of Figure 3 as filed. More particularly, Applicant is amending claims 8-15, and adding new independent claims 16 and 22 and dependent claims 17-21 and 23-27.
